EVENT PHOTOGRAPHY

From award ceremonies through to corporate training days and corporate golf days, we provide corporate event photography for a wide range of occasions.

Now the memories of any occasion can be remembered forever - in a snap! Event photography is a specialised, simple yet sophisticated photographic service that brings your event (grand or small) into the digital age.

Teesside-photography helps you leave a lasting impression with your event goers. It's an easy way for people to collect priceless souvenir images of themselves enjoying your occasion. The service is fun, fast and flexible… and best of all, it's free to all the people who attend your event.

Simply let us know your requirements and what sort of photographs you need. Then, on the day, we'll stay in the background and get the job done to your exacting standards.

We are used to working at corporate product launches, PR events and corporate golf days, and often come up with unique, creative ways of using those photographs – books, montages, digital frames – there are many ways to use the photographs we take.

We present the photographs in a variety of formats, including hard copy, printed books, digitally and live streaming at the event. Our corporate event photography service can include on-site printing and framing as well as an online service enabling you to view and order images after the event.

ABOUT TEESSIDE PHOTOGRAPHY

Photography with a new level of clarity, definition and style. Teesside Photography provides the best possible images for any event and for any legal purposes.

Our reputation depends on the quality of our work and our ability to offer a responsive and efficient professional service. We are always happy to quote in advance for all photographic or video work, be it on-site or studio based.
