SPORTS PHOTOGRAPHY

Youth Sports

With our experience in school and youth sports photography, we have the expertise to ensure that every picture day is a great experience for both the athlete and parents alike. Our program makes every picture day hassle-free for leagues, clubs and other school and youth groups.

Our photographers are able to capture the essence of the sport through the faces and action play thus helping parents preserve those precious memories for years to come

Rugby pictures, Golf Images and more

Whether you are looking for a rare cricket picture or are searching for a sports canvas print, our breathtaking collection is guaranteed to impress. We have hundreds of sporting greats in our portfolio and are able to cover any event using the latest digital technology. Examples of our work can be viewed on our website.

Technically

Fast shutter speeds, large apertures and increased ISO sensitivity are necessary to capture crystal clear action shots. Telescopic lenses are essential when the sporting action is some distance away from the nearest vantage point (Such as in athletics, cricket, football, rugby etc). At Teesside Photography we can use our knowledge and experience to provide sporting shots with greater clarity than seen ever before.

Other photographers are left wondering just how we managed to achieve such great shots.

ABOUT TEESSIDE PHOTOGRAPHY

Photography with a new level of clarity, definition and style. Teesside Photography provides the best possible images for any event and for any legal purposes.

Our reputation depends on the quality of our work and our ability to offer a responsive and efficient professional service. We are always happy to quote in advance for all photographic or video work, be it on-site or studio based.
